

Kognoz Research and Consulting: Learning@Work

At Kognoz, we believe that continuous learning is critical for the success of any organization. Our approach to learning is centered around providing learning in the flow of work, using asynchronous learning methods, and leveraging the latest in behavioral science to drive engagement and knowledge retention.

We specialize in creating cutting-edge learning ecosystems that are designed to enable faster skill development, leading to higher productivity and business success. Our Learning@Work methodology is a human-centric approach to learning design that promotes self-directed, personalized, and seamlessly integrated learning experiences.

Our expertise lies in designing learning ecosystems that prioritize social learning, micro-learning, and asynchronous learning. We work closely with your organization to design personalized learning journeys that empower your employees to acquire critical skills in a shorter time frame, resulting in faster mastery of essential skill areas.

We also offer leadership development programs that are focused on enabling leaders to become better coaches and mentors to their teams. Our coaching programs are designed to help leaders improve their coaching skills, and our leadership journey solutions are designed to help leaders navigate complex business environments and drive business success.

Our approach is designed to help you build a high-performance learning organization that is ready to tackle any challenge. We offer services for leadership assessment, development, and coaching, as well as learning design and development. Contact us at enable.learning@scale through learning@work.
